

**UIC COLLEGE OF MEDICINE**  
**College Committee on Committees**  
**Annual Report 2021-2022**

The Committee on Committees is charged with developing slates of candidates for election to standing committees of the College, reviewing the size and composition of College committees, and overseeing elections to campus committees. The Committee also advises the Dean regarding mid-term vacancies in committee membership and, during the past academic year, several mid-term committee vacancies were filled in this manner.

The Committee relies largely on each site's local Committee on Committees for the slating efforts relating to the college's standing committees. Final election slates are presented at the annual faculty meeting of the College for approval.

In the year ahead, the Committee will continue efforts to increase the number of potential nominees for College elections and committees, as well as work toward broader and more diverse representation from its departments.

Respectfully submitted,

Gloria Elam, MD - Chair  
College of Medicine Committee on Committees
