Strategic Planning

- Building on UICOM Strategic Plan
 - 107 faculty participating
 - Multiple meetings
 - Retreat in the fall

	Strategic Priorities	1 year	3 year	5 year
1	Enhance and grow medical education programs through transformative innovation, collaboration, and stakeholder engagement			
2	Foster a positive, inclusive work and learning experience for UICOMP employees and learners			
3	Advance research and scientific discovery in key areas like cancer, neurosciences, population/clinical effectiveness research, and educational research			
4	Create a sustainable funding model for supporting research in areas such as health equity and health disparities research			
5	Build new community partnerships and strengthen existing partnerships to promote health equity and health of the community we serve			
6	Develop interdisciplinary and inter-organizational programs to provide high-quality care to patients in specific niche areas			
7	Recruit and retain diverse faculty, staff and learners to UICOMP			
8	Develop and promote a distinct brand for UICOMP in the region			
9	Create a streamlined and efficient operating structure			
10	Build a strong foundation and alumni outreach for philanthropic growth and development			

Goals for 2021

1. Implementation of the strategic planning initiatives
2. A multi-tiered approach will be put in place to address the challenges with recruitment, retention and burnout.
3. Investment in IT infrastructure
4. Diversity, Equity and Inclusion initiatives
5. Educational Innovation and Scholarship
6. Expanding strategic collaborations and identifying areas of growth in the region

Summary

- We are thankful for a highly motivated, committed and energetic faculty, medical students, residents and staff.
- The University of Illinois College of Medicine Peoria remains focused on medical student and resident education in the context of patient care delivery. We are committed to our mission.
- Opportunities exist to expand clinical services in behavioral health, surgical care, and women and children services.
- Careful exploration of the opportunities for growth and strategic collaboration with partner hospitals are going to be important to advance clinical services in these areas while maintaining a level of autonomy
